PROFESSIONAL SUMMARY

Dynamic Frontend Developer with 2+ years of expertise in orchestrating responsive, user-centric web applications. Consistently delivered high-impact solutions leveraging React.js, JavaScript, and cutting-edge frontend technologies. Demonstrated track record of elevating application performance by 40%, enhancing user engagement by 25%, and streamlining development efficiency through innovative architectural solutions and industry best practices.

TECHNICAL PROFICIENCIES

Core Technologies: React.js (Advanced), JavaScript (ES6+), TypeScript, HTML5, CSS3, Next.js

Framework Expertise: Material-UI, TailwindCSS, Bootstrap, Soft-UI

State Management & Tools: Redux, Redux Toolkit, Context API, Git, GitHub, VS Code, Chrome DevTools.

Performance Optimization: SEO, Web Vitals, Accessibility, Code Splitting

Architecture: Responsive Design, Component Architecture, Cross-browser Development

PROFESSIONAL EXPERIENCE

Frontend Developer | Floworx Technologies

Jan 2023 - Feb2025

- Engineered high-performance web applications utilizing **React.js** and **JavaScript**, yielding 30% improvement in load times
- Spearheaded development of reusable component library, accelerating team productivity by **30%**
- Implemented advanced lazy loading strategies, resulting in **40%** enhancement in Core Web Vitals metrics
- Orchestrated seamless integration of **RESTful APIs**, ensuring 99.9% uptime for critical features
- Executed **performance optimization** initiatives, reducing bundle size by **45%**

KEY PROJECTS

Campus Mind [Student Information System]

- Role:** Lead Frontend Developer
- Architected comprehensive student wellness platform utilizing **React.js** ecosystem, driving 25% increase in user engagement
- Designed intuitive dashboard interfaces, decreasing navigation time by 50%
- Established component library standards, enhancing development velocity by **30%**
- Orchestrated deployment of **SEO optimizations**, improving search visibility by 60%
- Technologies:** React.js, Redux Toolkit, Material-UI, RESTful APIs, ApexChart.js, Axios, Soft-UI

LOVEMYTEST (LMT) - Educational Assessment Platform

- Role:** Frontend Developer
- Revolutionized assessment platform **UX**, resulting in 15% increase in user adoption
- Designed intuitive dashboard for subject scheduling, improving instructor efficiency by **30%**
- Optimized application performance metrics, delivering **20%** improvement in page load times
- Implemented **responsive design patterns**, ensuring seamless experience across devices
- Technologies:** React.js, JavaScript, Redux Toolkit, RESTful APIs, Axios, CSS

EDUCATION

Bachelor of Engineering

Jun 2015-May 2019

GD Rungta College of Engineering & Technology, Bhilai, Chhattisgarh

LANGUAGE

- English (Professional Business Proficiency)
- Hindi (Native Proficiency)

CERTIFICATIONS & ACHIEVEMENTS

Advanced Front-End Web Development with React (June 2022)

Credential URL: <https://certificate.codingninjas.com/verify/8bc3a5a2b8ae7930>

- Engineered high-performance web applications utilizing React.js and JavaScript, yielding 30% improvement in load times
- Implemented advanced **lazy loading strategies**, resulting in 40% enhancement in Core Web Vitals metrics
- Executed performance optimization initiatives, reducing bundle size by 45%
